The North Florida Green Chamber makes being green cool and convenient. Our creative tools and innovative programs bring our community together on green initiatives while connecting you with thoughtfully sourced resources, news and data. These benefits will assist you in being a more sustainable business, saving you time and providing confidence in knowing we have done the research for you.

**SUSTAINABILITY COACH**

As a NFGCC member your business has access to sustainability coaches. We know it can be difficult to take the time to research green efforts and set goals, even when it saves you money. We created a program that sends a sustainability coach to you. The coach will review your business pledge, help you identify goals, provide resources and answer your questions, all tailored to your industry and business type.

**BUYERS’ CLUB**

The purpose of the Buyer’s Club is to leverage volume and decrease the expense of environmentally friendly products, so it doesn’t cost more money to do the right thing. This elite club is for members only, and brings eco-friendly products to North Florida via a large group contract. In addition to sustainable products, our dedicated supplier will provide supply chain information to help you track and measure your goals.

**MEMBER SPOTLIGHT**

We love to spotlight the wonderful things our members do to make this a more sustainable region. Our Green Marketplace members have the opportunity to highlight a green product or service in our newsletters and on our popular social media outlets.

**GREEN MARKETPLACE**

Our online Green Directory makes it easy to answer the question “Where can I find local businesses that are green?” Find out by visiting the Green Marketplace on our website. (App coming soon!) Also, as a member you get global, national & local discounts and can even share discounts with other Green Chamber members.
A first of its kind in Northeast Florida, this program is designed to educate and spark discussion around businesses adding solar. Learn about tax credits and accelerated depreciation options for businesses that install solar. By joining the solar co-op you receive a personalized roof check, annual production report and simulation, along with a list of qualified solar professionals to fit your project’s needs.

As a member of the NF Green Chamber you have access to local webinars on multiple topics so you can stay on top of local and global sustainability news. You also have access to the members-only video series from the US Green Chamber.

The US Green Chamber of Commerce has created a pledge for individuals, businesses, schools and organizations to sign. A visual identifier will allow you to display and communicate your firm’s belief in mutual respect.

A benefit of affiliation with the US Green Chamber of Commerce, our toolkits are carefully vetted and created to help your business easily track metrics, run green events, calculate your energy and water usage, and find local resources. Toolkits include: resiliency preparedness, an event guide and recycling information.

We match passionate, driven students with local business leaders. This program is run by the NF Green Chamber Student Advisory Council and overseen by the NFGCC staff. One of our students might be your next brilliant employee!
